## **Neural Networks for Modelling, Control and Fault Detection** (1-day Course) **Agenda**

| 8.00  | Soft Computing Techniques                           |
|-------|---|
| 8.45  | Artificial Neural Networks                          |
| 10.00 | Tea/Coffee  |
| 10.15 | Hands-On session #1                                 |
| 11.15 | System Identification using Neural Networks         |
| 12.00 | Lunch   |
| 13.00 | System Estimation Using Neural Networks             |
| 13.45 | Hands-On Session #2                                 |
| 14.45 | Tea/Coffee  |
| 15.00 | Fault detection and Isolation using Neural Networks |
| 16.00 | Close   |
